Senior SOC Analyst (m/f/d)

Who are we?

- We are an international, fast growing and innovative tech company in the field of cybersecurity
- Our service offering includes a self-developed vulnerability scanner as well as pentesting, a cyber defense operations center, security awareness trainings and expertise in blockchain technologies
- We create awareness for cybersecurity in the digitalization process
- Cybersecurity knows no borders: our locations are now in Cairo, Zurich, Berlin, Cologne, Abu Dhabi and Flensburg

What do we offer you?

- Health insurance
- Transportation depending on position and rank

Your tasks with us:

- Responsibility for the establishment and further development of a Security Operations Center (SOC)
- Working on the investigation of security incidents alongside the incident response team
- Planning and implementation of countermeasures to cyberattacks
- Analysis and evaluation of security incidents in our central security platforms (Threat Hunting)
- Regular communication with the customer and Management
- Detailed documentation of incidents in a ticket system / SIEM system and preparation of corresponding reports
- Monitoring and detection of attacks and deviations from normal system behavior and initiation of appropriate countermeasures
- Development of concepts for the containment and prevention of attacks

Your profile:

- At least 5 years of professional experience in IT security or 3 years as an analyst
- Strong interest in IT security topics
- Experience in blue-teaming (e.g. SOC, incident response)
- Relevant certifications in the field (CEH, Securtiy+, CySA+, …).
- Knowledge in several of the areas listed below: IT security, security products, incident response, Windows, Linux, networking, active directory, internet technologies
- Very good communication skills
- Conceptual skills as well as an analytical, solution-oriented way of working
- Very good English skills, both written and spoken
